OFFICE OF PETITIONS

In re Application of :
Zemlyakov et al. : LETTER DISMISSING PETITION
Application No. 10/017,280 :
Filed: 7 December, 2001 :
For: UPPER EXTREMITY :
EXOSKELETON STRUCTURE AND :
METHOD :

This is a decision in reference to the letter filed on 7 September, 2006, which is treated as a renewed petition to withdraw the holding of abandonment.

This application became abandoned on 7 November, 2003, for failure to timely file corrected drawings as required by the Notice of Allowability mailed on 6 August, 2003, which set a three (3) month statutory period for reply. Notice of Abandonment was mailed on 3 June, 2004. The petition to withdraw the holding of abandonment filed on 21 June, 2004, was dismissed on 30 March, 2006. The petition filed on 25 May, 2006, was dismissed on 11 July, 2006.

The petition cannot be considered on the merits because it is not properly signed. Specifically, 37 CFR 1.4 requires that all papers filed in the USPTO must be signed by either a registered patent attorney or all of the inventors in an application. As this application contains an executed declaration listing Vladimir Zemlyakov and Patrick McDonough as the joint inventors, the petition must be signed by both inventors or their registered patent attorney.

Petitioners request that the holding of abandonment be withdrawn "because Applicants have sent the formal reply including the substance of the Interview with correct drawings in timely, mailed August 7, 2003, and Issue and Publication Fees (\$950.00) mailed September 17, 2003."

Petitioner's argument has been considered, but is not persuasive. As stated in the Decision on Petition mailed on 30 March, 2006, and 11 July, 2006, applicants were required to file a response in reply to the Interview Summary mailed on 6 August, 2003, but applicants failed so to do. Applicants statement that "[T]he Interview is primary, for which Applicants mailed [a] formal response," is not persuasive because applicants clearly failed to file a response to the Interview Summary. As previously stated, a timely response to the Interview Summary was **required** to be filed, regardless of whether applicants believed that their prior response had satisfied the issues raised during the interview.

Further, it is noted in paragraph 3 of the present request for reconsideration that petitioners state that a reply was filed on 7 August, 2003, addressing the drawing deficiencies noted in the non-final Office action mailed on 16 July, 2003. Petitioners further state that "Applicants claim that Certificate of Mail dated 7 August, 2003, and date of mailing clearly indicate that that Applicant's reply was sent in response to the Examiner's interview held on 5 August, 2003. Really, if the letter was mailed after the Interview date, the letter was the response for that action." This argument lacks merit because the transmittal letter states that the reply mailed on 7 August, 2003, was in response to the Office action mailed on 16 July, 2003, not the Examiner's Interview Summary mailed on 6 August, 2003. The showing of record is that no response to the Interview Summary was ever filed, as required.

As such, the showing of record is that the abandonment resulted from the failure of petitioners to provide corrected drawings in response to the Interview Summary, rather than an error on the part of the USPTO.

As such the application is properly held abandoned.

It is further noted that proper drawings have still not been received. Corrected drawings should be filed with any renewed petition.

The petition is again **DISMISSED**.

Petitioners are **strongly advised** to file a petition to revive under 37 C.F.R. 1.137(b), along with corrected drawings.

Any request for reconsideration must be filed within **TWO (2) MONTHS** of the date of this decision.
